A resolution to request that the Weakley County Court appropriate $425,000.00 for Capital School Improvement

Whereas, The Tennessee State Department of Education and the Weakley County Board of Education have made a study of the schools in Weakley County to determine the immediate needs in order for us to maintain and carry out an adequeate educational program for our children in Weakley County.

Whereas, The overall Capital Improvement Program, based on our study, will require a building program in each of the following schools--Dresden, Martin, Sharon, Gleason, Palmersville, Greenfield, and Weakley County Training School--to meet the minimum needs in each school.

Whereas, The cost of this program will be $425,000.00 above our present school budget, we, the Weakley County Board of Education request that you, the Weakley County Court, appropriate $425,000.00 to be used for Capital School Improvement.

Respectfully submitted,

WEAKLEY COUNTY BOARD OF EDUCATION
